Glad Price List

Dodropin Glad Gardens

LEWISTON, IDAHO

Bailey, Robert G. ☞ ☞ ☞

Wholesale and Retail—Superseding all former catalogs. We have had such a run on many varieties that they are entirely exhausted and will be unable to fill orders for any varieties not shown in this supplement.

It is doubtful if we will be able to fill any orders after April 25, as by that time we hope to have all our glads in the ground.

Six bulbs may be had at the dozen rate and 50 at the 100 rate.

OUR SPECIAL ASSORTMENT

This year we have made up three lots of Glads which we want to especially recommend. Every bulb in these collections is of a good variety. Many of them of the higher priced bulbs listed in this catalog, which for some reason have become mixed, the label lost or some other like cause makes them unavailable for the retail trade.

LOT 1—In this lot there are 50 small bulbs, all blooming size, of assorted colors, priced at \$1.00.

LOT 2—This also contains 50 bulbs of blooming size, taken from our regular retail bins. Good assortment of colors. \$1.50.

LOT 3—This lot contains 50 bulbs of blooming size, of assorted varieties, each variety tagged and wrapped separately, \$2.00.

NEW HOLLAND CREATIONS

We have imported three of the new varieties and now have the increase for sale, in three sizes. All three are exceptionally outstanding.

PFITZER'S TRIUMPH—Bright salmon orange, with flowers of enormous size. Large size, \$5.00; medium, \$3.00; small, \$2.00.

HEAVENLY BLUE—Of a tender lilac heliotrope blue color, a most wonderful flower. \$15.00 for large and \$10.00 for medium size; \$5.00 for small.

MRS. VAN KONYNENBURG—A light blue, said to be the very best of its color. In three sizes, priced at \$5.00, \$3.00, \$2.00.

GERALDINE FARRAR—We want to especially call attention to this glad. It is very much like the new Holland sensation "Heavenly Blue," only slightly darker. It is of a pale lavender or blue color, such as all growers are striving to produce. As grown by us, it is the outstanding glad in its color of American creation.

We have small quantities of many of the newer varieties which we do not list. If there is any *Gladiolus* which you desire but do not see listed, write us about it. It may be among our unlisted varieties. Like other Glad bugs, we are growing thousands of seedlings and hope some day to startle the flower world with introductions to make one sit up and take notice.

TIGER LILY (*Tigrinum Splendens*)—Very hardy lily, orange, spotted purple. The most gorgeous and satisfactory of all the hardy lilies. Each with any \$1.00 order, 25c. Five for \$1.00.

We are members of the American *Gladiolus* Society and would recommend to all *Gladiolus* growers that they become affiliated with this organization. Its monthly bulletin is alone worth the membership fee.

Lewiston Orchards, where our bulbs are grown, have an altitude of 1500 feet. It is a heavy, clayish, volcanic ash soil. The bulbs are raised in virgin soil and are free from disease. It is farther north than the northernmost part of Maine. This makes for hardy bulbs, and they will bloom profusely any place where there are 90 consecutive nights without freezing temperatures. In warm sections, by actual tests, these bulbs are exceptionally quick to come into bloom and make flowers of large size and brilliancy.

We have been growing flowers in Lewiston for 22 years, and at times have fifty thousand or more blossoms to greet the eye.

As to our reliability, by special permission we refer you to the Lewiston National Bank. Also to Dunn's and Bradstreet's.

Cash must accompany all orders under \$2.00. Over this amount 25 per cent of the amount must accompany the order. The balance to be paid before shipment is made. Bulbs may be shipped at any time the customer wishes. But we will not hold orders after April 1 unless fully paid in advance.

With all orders we send free the American Gladiolus Association instructions for planting, growing, care of, harvesting and storing of bulbs. Also the cutting and care of the bloom spikes.

No order for bulbs will be accepted for less than \$1.00, and none of the special assortments will be divided or mixed.

All bulbs or plants listed in this catalog are prepaid to any point in the United States.

We can supply about 50 varieties of Chrysanthemums, three distinct strains of Delphiniums, besides dozens of other perennial plants and shrubs. These are grown for our own pleasure and only the increase is sold.

GUARANTEE—Every bulb or plant sent out by us is absolutely guaranteed. If it is not as represented, write us and we will make an adjustment. But we do not guarantee results in the growing. This is beyond our control.

All orders or inquiries should be addressed to

DODROPIN GLAD GARDENS
